LGCAP Year 2 Survey

The Survey

Question 1: How many staff in full time equivalents (FTEs) are dedicated to working on climate action?* For example: Can include staff in engineering, emergency management, sustainability, transportation, waste management, etc. If a staff member is a climate action coordinator and works 100% on climate-related issues, add 1.0. If a staff member works approximately 25% (please estimate) on climate-related issues, add 0.25. Working on climate-related issues does not need to be written into the staff member's job description to be counted here. Question 2: Does your local government or Nation have a climate action plan or other guiding document(s)? * () Yes (X) No Please select the type of plan(s) from the list.* Integrated climate plan (addressing mitigation, adaptation and/or energy use) Integrated climate plan (addressing mitigation and adaptation) [] [] Integrated climate plan (addressing mitigation and energy) Integrated climate plan (addressing adaptation and energy) [] Standalone mitigation plan [] Standalone adaptation plan [] [] Standalone energy-related plan Don't know Please indicate the date the plan was adopted/approved.* If you don't remember the month, you can enter "01" for January. Please include a link to the document or webpage if available. If not, please select one or more options from the list.* [X] No, but we are currently undertaking one and it will be completed in the next two years. No, we are not intending to undertake one due to lack of financial capacity. No, we are not intending to undertake one due to lack of expertise or technical capacity. Question 3: Has your local government or Nation declared a climate emergency?* () Yes (X) No Question 4: Please select the top 3 challenges impeding the advancement of climate action in your community.* Lack of jurisdiction. [X] Lack of staff capacity or expertise. [X] Lack of financial resources.

Other.

Lack of data or information. Lack of local political support.

[X] Lack of provincial or federal government support or collaboration.

| Que | estion 5: For the 2022 calendar year, has your local government or Nation measured and reported associated corporate GHG emissions?* |
|-------|--|
| () | Yes |
| (X) | No |
| () | No, but for a past year. (Please enter most recent year completed: YYYY) |
| | |
| If yo | our local government or Nation measured 2022 corporate GHG emissions, please report the number of corporate GHG emissions from |
| ser | vices delivered directly by your local government (in tonnes of carbon dioxide equivalent).* |
| If v | our local government or Nation measured 2022 corporate GHG emissions, please report the number of corporate GHG emissions from |
| con | tracted services (in tonnes of carbon dioxide equivalent).* |
| | |
| | our local government or Nation measured 2022 corporate GHG emissions, please report the total number of corporate GHG emissions from a directly delivered and contracted services (in tonnes of carbon dioxide equivalent).* |
| | s would be the sum of the two questions above. |
| | |
| Opt | ional: Please indicate how many tonnes of CO2e are associated with facilities. |
| | |
| Opt | ional: Please indicate how many tonnes of CO2e are associated with mobile sources. |
| | |
| Ple | ase provide the link to the public report if available. |
| Opt | ional |
| | |
| If no | pt, please select all that apply.* |
| [] | No, due to lack of staff and technical capacity. |
| [] | No, due to lack of financial resources. |
| [] | No, due to lack of awareness regarding which GHG accounting tools are available. |
| [] | No, corporate emissions are measured but not reported. |
| [X] | Measurement is in-progress. |
| [] | Corporate inventory is not developed annually. |
| | ional: Please provide any further comments you wish to share on corporate emissions measurement and reporting here (e.g. system or |
| | roach used to measure corporate emissions). RD rural population is below 15,000 and therefore, below population required for reporting; however, we are |
| usii | ng reporting tools to help estimate GHG emissions. |
| Que | estion 6: For the 2022 calendar year, have community-wide GHG emissions been measured for your local government or Nation?* |
| () | Yes |
| (X) | In-progress |
| () | No |
| Dia | and report your community wide transportation coster emissions in tennes of CO2s for 2022 |
| rie | ase report your community-wide transportation sector emissions in tonnes of CO2e for 2022. |
| Dia | ase report your community-wide huildings sector emissions in toppes of CO2s for 2022 |
| -16 | ase report your community-wide buildings sector emissions in tonnes of CO2e for 2022. |
| Pla | ase report your community-wide solid waste sector emissions in tonnes of CO2e for 2022. |
| r Ie | ase report your community-wide solid waste sector emissions in tornes of COZE for 2022. |
| If n | ot, please select all that apply from the list.* |
| | on product contain that upply from the net |

| [] | No, community GHG emissions were not reported because the 2022 Provincial Community Energy been released. | and Emissions Inve | ntory data has not |
|--|--|--|---|
| [] | No, community GHG emissions were not reported because the 2022 Provincial Community Energy and Emissions Inventory does not report transportation data. | | |
| [] | No, we do not measure and report community-wide emissions data due to lack of financial capacity | y. | |
| [] | No, we do not measure and report community-wide emissions data due to lack of staff and technic | al capacity. | |
| [] | No, we do not measure and report community-wide emissions annually. (Please indicate most recent year completed: YYYY) | | |
| If n | ot, has your community or Nation measured and reported community-wide emissions in the past?* | | |
| () | Yes | | |
| () | No | | |
| | nen was the last year your community or Nation reported its community-wide emissions and what is tars)?* | he interval for reporti | ng (ex. every 5 |
| | | | |
| For | the 2022 calendar year, did your community use raw data from the Community Energy and Emissic nmunity-wide emissions?* | ons Inventory initiative | e to calculate |
| () | Yes | | |
| () | No | | |
| () | Not sure | | |
| | estion 7: Currently, the Province's legislated GHG emission reduction targets are 40% by 2030, 60% 07. Please state your local government or Nation's target(s).* | by 2040 and 80% by | y 2050, relative to |
| 200 | 7. House state your local government of Matierro talget(e). | Reduction (format: e.g., 40%) | Baseline Year (format: 2007) |

Optional: Please provide any further comments you wish to share on community-wide emissions measurement and reporting here.

Question 10: Please indicate all climate initiatives your local government or Nation had in-progress or completed in the 2022 calendar year related to the buildings sector.* The buildings and communities sectoral target for the province is 59% to 64% emissions reductions by 2030. Zero-carbon new construction (please enter date in pop-up textbox below) [] Highest efficiency standards for new space and water heating equipment [] Topping up Provincial energy efficiency programs Step Code adoption Zero Carbon Step Code Zero-carbon heating requirement Net zero buildings commitments Efficiency upgrades to public buildings Demand-side management [] [] Not applicable Other [] Please enter date effective for zero-carbon new construction requirement. Optional: Please highlight a community project(s) that was in-progress or completed in the 2022 calendar year related to buildings. Question 11: Please indicate all climate initiatives your local government or Nation had in-progress or completed in the 2022 calendar year related to the transportation sector. The transportation sectoral target for the province is 27% to 32% emissions reductions by 2030. Demand-side management to reduce distance travelled (single-occupancy vehicle commute reduction programs, parking disincentives) [] [] Improving or expanding public transportation [] Mode shift targets in Official Community Plan, Regional Growth Strategy or other guiding document Established personal transportation target goals, and measures to reach them, in annual reports - must include target goals for vehicle kilometre reduction, mode share for active transportation and zero-emission vehicles - and report on progress Established commercial transportation target goals, and measures to reach them, in annual reports - must include target goals for vehicle kilometre reduction, mode share for energy efficient commercial transportation and zero-emission vehicles - report on progress Implemented zero-emission vehicle first procurement policy for all local government on and off-road vehicles purchases. [] [] Implemented a zero-emission vehicle preference or requirement for contracted work from a service provider [] Bylaws updated to prioritize energy efficient transportation hierarchy (i.e. pedestrians first) Revising existing bylaws or implementing new ones to support active transportation [X] Active transportation planning Active transportation infrastructure investments Electric vehicle charging studies/planning [] Established electric vehicle charging ready bylaws [] Electric vehicle charging infrastructure investments [] Streamlined hydrogen fuelling station permitting process

Required new and/or existing gasoline and card lock fuel stations to include zero-emission vehicle infrastructure development

Required green roads certification for any new or significantly modified existing roads
